DETAILED ACTION

Note: This is in response to Amendment filed 08/26/2008.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 103-116 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Martakos et al. (U.S. 5474824).

Martakos et al reference discloses throughout the specification the method steps as recited in the claims such as making a prosthesis (foam graft) which comprises the steps of extruding a thermoplastic elastomer with the aid of physical and chemical blowing agents to produce a foamed graft.

Response to Arguments

1. Applicant's arguments filed 06/30/2008 have been fully considered but they are not persuasive. Applicant's arguments, see remarks, filed 02/20/2008, with respect to the rejection(s) of claim(s) 103-116 under Bell et al. (US 5891558) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Martakos et al. (US 5474824).
